SUMMARY

BSIT graduate and junior developer with experience in MERN stack and Python-based data processing. Built full-stack applications and improved data workflows during internships. Interested in developing practical, efficient systems for real-world use.

EXPERIENCE

On The Job Training

Negosyo Center, LGU Santa Cruz

February 2025 - May 2025, Santa Cruz

- Digitized and audited 100+ local business records for the LGU database, improving data accessibility for staff.
- Used Excel and Google Sheets to clean, format, and validate business data records.
- Optimized digital workflows by collaborating with staff to implement more efficient system-based administrative tasks.

On The Job Training

Ilocos Sur Polytechnic State College (Tagudin Campus)

April 2023 - June 2023, Tagudin Campus

- Helped maintain stable workstation performance by resolving 20+ hardware/software issues weekly.
- Streamlined tracking efficiency by documenting system processes and organizing a database of institutional IT assets.
- Troubleshooted hardware and software failures for internal users, ensuring rapid recovery of critical campus operations.

PROJECTS

Allkits - Ecommerce App

github.com/Allarezeroes26/AllkitsCRUD • January 2026 - January 2026

- Architected a full-stack e-commerce platform using the MERN stack with JWT-based authentication and a secure product management system.
- Integrated a responsive shopping cart and dynamic catalog, optimizing MongoDB queries to handle real-time product updates and inventory tracking.

Todo App

github.com/Allarezeroes26/ToDoList • February 2026 - February 2026

- Engineered a robust productivity application using React and Zustand for state management, featuring secure user authentication and subtask nesting.
- Developed a persistent focus timer and customizable theme engine, improving user engagement by providing a tailored workflow environment.

EDUCATION

Bachelor's Degree, Information Technology

Ilocos Sur Polytechnic State College • Tagudin Campus • 2025 • 1.89 (Very Good)

AWARDS & HONORS

International Student Exchange Excellence Awardee

Ilocos Sur Polytechnic State College • 2025

SKILLS

Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Libraries/Frameworks: React, Node.js, Express, MongoDB, Pandas, Scikit-learn, NumPy, Matplotlib, Seaborn

Tools/DevOps: Git, GitHub, Render, Heroku, Google Workspace, Office 365, Postman, Data Visualization
